At GEO Produce, we take great measures to provide fresh, naturally grown, gourmet enriched premium quality products. Our greenhouse vegetables are monitored in a biologically controlled atmosphere that is environmentally friendly, and free from harmful chemicals, additives or preservatives. In addition, nature's helpers, including bees and ladybugs, are involved in the plant growth process as they play a role in pest management control. While each food product is carefully nurtured from seedling to adulthood, harvest time becomes a selective process. All produce is individually handpicked and hand-packed, while meeting stringent safety food guidelines outlined by the HASAP program.

- Beefsteak Tomatoes
- Cucumbers
- Red, Yellow and Orange Peppers
- Tomato Vine Clusters

During the warmer months, GEO Produce offers additional vegetables from its field crop. This seasonal offering provides a wonderful selection of produce grown by traditional farming methods that have been passed down through three family generations. A sample of our field produce includes:

- Peppers
- Roma Tomatoes

Our goal at GEO Produce is to provide only the best vegetables on the market. Doing so has helped secure trust and respect from clients like HJ Heinz Company of Canada, and has kept the family name highly regarded throughout Southwestern Ontario for over four decades.

A greatly valued and well-known grower of agricultural products, GEO Produce is part of a large network of equally esteemed greenhouse farmers. While sharing the methods and knowledge of modern science and Mother Nature, GEO Produce and its affiliates are recognized as the number one source for greenhouse products in Chatham Kent.

For more information about how we can provide you with fresh, naturally grown, gourmet enriched premium quality products, contact us at (519) 436-0913 or visit our web site at [www.geoproduce.com](http://www.geoproduce.com) for tips on diet, recipes and promotional incentives.
